

How to Apply Nynute Anesthetic Ointment (Lidocaine 23%/Tetracaine 7%)

You have been provided with this anesthetic ointment exclusively for use to numb your skin prior to Radiofrequency (RF) Microneedling at Glo Skin Studio to aid in managing your comfort level during your treatment.

Do not use this ointment for other purposes, over broken, inflamed, irritated, sunburned, compromised skin. Please notify Glo Skin Studio if there are any changes to your skin prior to use.

Instructions

*Apply the ointment **A MINIMUM OF 30 MINUTES & NO MORE THAN 1 HOUR** prior to treatment*

1. Wash your hands
2. Remove any makeup and thoroughly cleanse the area to be treated
3. Apply **ALL of the ointment provided EVENLY** to the cleansed area. **MAKE SURE TO APPLY A GENEROUS AMOUNT TO THE FOREHEAD** (if being treated).
4. Be sure to avoid getting ointment on the lips & eyelids as well as in your eyes, ears, nose & mouth.
5. **Face application** should go all the way to the hairline, out to the ears and just under the jawline. Apply over the eyebrow, underneath the eyebrow (using caution to avoid the eyelid) and up to ½" from the lower lash line.
6. **Neck application** should go from the jawline out to the ears. Straight down from the ears and across the collar bone.
7. **Chest application** should go from the collar bone down to the breast, including the area between the breast and out the armpit.
8. **Consult with Glo Skin Studio for body application**
9. If you have applied numbing in an area that will be covered by clothing or a seat belt, OR you want the numbing to be more potent, place saran/plastic wrap over the ointment to keep it from being removed from the skin or getting on fabric.
10. Wash your hands thoroughly when you've completed your application
11. If you get the ointment in your eyes, nose, mouth or open skin rinse thoroughly immediately. Eyes may also be rinsed with saline. Skin may also be cleansed with a gentle cleanser.
- 12. DO NOT WASH NUMBING OINTMENT OFF. IT WILL BE REMOVED FOR YOU.**
- 13. MOST IMPORTANTLY, DO NOT ALLOW OINTMENT TIME ON SKIN TO EXCEED 60 MINUTES**
